RE: Trench Backfilling Approval - Groundwater
Migration Control System, Sauget Area 2 Site (Site R) -
St. Clair County, Illinois

Dear Mr. Smith:

Last week the United States Environmental Protection Agency (U.S. EPA) reviewed trench bottom profiles and determined that the trench bottom between STA 14+40 and STA 17+90 had been cleaned of excess sand and backfill mixture. With this approval, Solutia is now authorized to proceed with trench backfilling operations beyond STA 14+40.

If you have any questions regarding this letter, please feel free to call me at (312) 886-6840.

Sincerely,

A handwritten signature in black ink that reads "Nabil Fayoumi".

Nabil Fayoumi
